

SAUDI ARAMCO PACKING SPECIFICATIONS

ADDITIONAL PACKING, PACKAGING OR MARKING REQUIREMENTS

MATERIALS : Gaskets: Ring Joint, Pressure Energized.

RANGE OF MATERIALS: AMS General Supply stock items in Class 06, subclass 02 (S/Ns 06-142-495 through 06-142-887) and Direct Charge items of the same kind.

This requirement is in addition to the Saudi Aramco Materials System Specification, the material description, the Saudi Aramco Export Packing Specifications, and applies only to the material indicated. Deviation is not allowed without the Buyer's written approval.

Ring Joint Gaskets shall be individually packaged in a corrugated container with the Saudi Aramco stock number stenciled on each container.
